Major:

Advisor:

Advisor Signature:

Date:

When determined by the Quantitative Standard, Satisfactory Academic Progress (SAP) is met when a student maintains at least a 67% completion rate of attempted credits at the university. The completion rate can be calculated as follows:

Completion Rate = Earned Credits / Attempted Credits (include transfer credits)

Provide the information below and fill out each semester with currently registered and/or planned future coursework until the completion rate is 67% (.67) or greater. Assume successful completion of all future coursework and be sure to recalculate earned and attempted credits each semester for an accurate predicted completion rate.

## Cumulative GPA

Earned Credits / Attempted Credits (incl. Transfer) = % (Current Completion Rate)

| Semester, Year:   |    |       |
|-------------------|----|-------|
| Course #          | CR | Grade |
|                   |    |       |
|                   |    |       |
